

**Getting Started:**

- ▶ Print this page to plan your video.
- ▶ Visit the Photo webpage at [www.videomvp.com/photos\\_slides\\_home.htm](http://www.videomvp.com/photos_slides_home.htm) for more tips.
- ▶ As a general rule, use 12 photos or slides per minute of music, but you can vary this as you like. We will edit your photos to fit the music.
- ▶ Number every photo on the back in the lower corner (**never the center**), using an ink pen (**never a marker**). Don't start over with #1 at any point. Number titles and video segments in their position among the photos.
